

Earth Day 2006 at Camp Parks, California

This year Camp Parks celebrated Earth Day on Friday April 21, 2006. The celebration included tours and equipment demonstrations at the Recycling Center. The Hazardous Waste area was open all day to accept amnesty turn-ins from all waste that had not yet been turned in. Soldiers and guests of the Dining Facility stopped by a give-away table for discussions on Earth Day related issues like recycling, water conservation and energy conservation. Giveaways included pens and pencils made from recycled material, pamphlets on the history of Earth Day and energy conservation.
